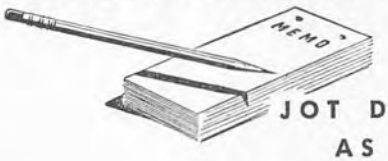
CALL BY NUMBER FOR FASTER LONG DISTANCE SERVICE



JOT DOWN NEW NUMBERS
AS YOU LEARN THEM

NAME AND TOWN	NUMBER

GIVE DETAILS OF LONG DISTANCE CALLS IN THIS ORDER:

1. The town you are calling.
2. The out-of-town telephone number, if you know it.
3. The name of the person you are calling, or tell the operator you will talk to anyone.
4. The operator will then start your call through. Wait until she asks for your name and number.

For Business Transactions ..... Call Business Office

ADRIAN M. NEWENS, Area Manager, Nebraska City, Nebraska
H. W. SPAHNLE, District Manager, Lincoln, Nebraska

To Place a Long Distance Call

Tell the Long Distance Operator:

1. The city or town you want.
2. The out-of-town telephone number, if available, otherwise the name and address of the residence or business firm being called.
3. Your telephone number (and name if required) when requested by the operator.

When placing a station-to-station call, tell the operator you will talk with anyone who answers the telephone. If you wish to place a person-to-person call, simply give the operator the same information as above and the name of the particular person or department wanted.

Consult Your Directory

Keep your telephone directory handy and please use it . . . don't call or dial "Information" until you are satisfied the number you wish to call or dial is not listed in this directory.

Party Line Service

1. Please limit all conversation to five minutes, as long conversations prevent the use of the line by those who share the line with you and by those who may wish to call you.

2. Whenever a party line subscriber takes the receiver from the hook and finds the line in use, the receiver should be replaced at once in a careful manner.

3. You would help your neighbor in an emergency so please give up the line to him if he has to place an emergency call while you are talking.

GENERAL INFORMATION

Regarding Service Furnished by The Lincoln Telephone & Telegraph Company

USE OF EQUIPMENT BY SUBSCRIBER

Telephone service is for the exclusive use of the subscriber, members of his family, and/or his employees. The equipment shall not be removed from the subscriber's premises except by an authorized employee of the Company, and shall be surrendered to the Company upon the termination of the subscriber's contract.

PAYMENT FOR OUT-OF-TOWN CALLS

The subscriber agrees to pay promptly for all toll line service furnished over the instrument leased under his contract regardless of whether such calls are placed with his knowledge and/or consent.

FOREIGN EQUIPMENT AND APPLIANCES

The equipment furnished by the Telephone Company shall be carefully used and no instrument or appliance, not authorized by The Lincoln Telephone & Telegraph Company, shall be attached to or in any way used in connection with such equipment. Telephone instruments have been designed to produce the best results and are necessarily sensitive and intricate. The various devices which are offered for sale, and which are supposed to improve transmission, eliminate noise, destroy germs, or afford other improvements, are not only unnecessary, but generally cause trouble. In order to protect its service the Telephone Company will remove all such appliances.

RIGHT OF ACCESS TO PREMISES

The agents of the Company shall have the right to enter the premises of the subscriber, at all reasonable hours, for the purpose of inspection, repair or removal of Company's equipment or wiring. The Company reserves the right to make observations of service rendered to the subscriber for the purpose of improving the service by detecting trouble or annoyances caused by the subscriber, or improper use of the service by the subscriber.

ALLOWANCE FOR FAILURE OF SERVICE

The Company does not guarantee the uninterrupted working of the line or instrument. No reduction from the exchange service charge shall be made for interruptions unless the same shall have continued for more than forty-eight hours after notice is given of each interruption.

In case of widespread disaster, resulting in interruption to the service, no reduction from the exchange service charge shall be made unless the same shall have continued for a period of more than one week.

CHANGE OF NUMBER

The Company reserves the right to change at any time, any telephone number to meet service requirements.

DIRECTORIES

The Telephone Directory is published for the convenience of subscribers, but the Company assumes no liability for damages to subscribers for errors or omissions. No change in listings will be made or new listings inserted in the next issue of the Directory, unless the necessary work of making the change of installation involved is completed before the Directory form closes for the printers. The Telephone Directory is issued by and is the property of The Lincoln Telephone & Telegraph Company, and shall be surrendered upon delivery of each later issue. It is copyrighted, and all persons are warned against attaching any unauthorized advertisement, binder, holder, auxiliary cover or any other device.

DEFAULT OF PAYMENT OR OTHER BREACH OF CONTRACT

All bills are due when rendered, and are payable at the Company's business office. However, failure to receive a bill will not exempt the subscriber from prompt payment as required by his contract. In event of any default of payment, or other breach of the terms of its service contract, the Company reserves the right to discontinue the subscriber's service or disconnect and remove its telephone equipment.

INFORMATION AND TRANSMISSION SERVICE

The Company assumes no liability for errors which may arise in imparting information. The subscriber assumes all risks for errors and delays in the transmission and delivery over the instruments and lines of the Telephone Company.

SERVICE CONNECTION AND MOVE CHARGES

The telephone equipment will be placed as near as possible where first directed by the subscriber. If the subscriber orders a change of location of any part of the telephone equipment, a charge will be made in accordance with rules and regulations then in effect.

TELEPHONE RECORDING SIGNAL

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

GENERAL INFORMATION
(continued)

PARTY LINE SERVICE REGULATIONS

In connection with the furnishing of party line service, it is imperative that each subscriber will so use the service that it will not interfere with any other subscriber on the line. When placing a call, listen to make sure the line is not in use. If the line is busy, hang up quickly and quietly and try again in a few minutes. Keep calls reasonably brief, avoid placing several calls in immediate succession and release the line immediately for emergency calls. The company reserves the right to discontinue the service of a party line subscriber for failure to observe these regulations to the extent that it interferes with and restricts the use of the service by other subscribers.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities can be obtained at a nominal cost. Prices, etc., may be secured and the order placed by calling the business office.

TELEPHONE MOTION PICTURES

Entertaining and informative sound motion pictures on telephone subjects are available free of charge. A descriptive catalogue of films is available upon request. For full information just call or visit our business office.

PERSONAL TELEPHONE DIRECTORY

A free booklet to keep a personal list of out-of-town numbers is yours for asking. Your business office will gladly give you a copy and obtain the telephone numbers for the out-of-town telephones.

OUR POLICY

It is the constant aim of this Company to furnish a high type of telephone service at the lowest rate permitting of the furnishing of such service. In the rendering of telephone service, the Company considers the interests of its subscribers and of the telephone-using public in general as of the utmost importance. It is the Company's desire to keep its subscribers informed continually of its aims, objectives and problems in order that there may be a mutual understanding of these important factors. Constructive suggestions and criticisms offered by subscribers are always welcome.

INSTRUCTIONS FOR USING DIAL TELEPHONES

1. BE SURE OF THE NUMBER. If you do not find it in the directory, dial "information".
2. LIFT RECEIVER AND LISTEN FOR THE DIAL TONE—a steady humming sound. Do not start to dial until you hear this sound.
3. PLACE YOUR FINGER IN THE OPENING WHERE YOU SEE THE FIRST FIGURE OF THE NUMBER YOU WISH TO CALL.
4. TURN THE DIAL AROUND UNTIL YOUR FINGER STRIKES THE FINGER STOP. Remove finger and let dial return freely.
5. PROCEED IN THE SAME WAY TO DIAL THE REMAINING FIGURES OF THE NUMBER IN THE ORDER IN WHICH THEY APPEAR.
6. A "BUR-R-ING" SOUND TELLS YOU THE TELEPHONE IS RINGING, A "BUZZ-BUZZ" INDICATES THE LINE IS BUSY. If you hear the busy signal, or if you do not hear either sound, hang up, and after a reasonable wait try the call again.
7. IF YOU HEAR A TICKING SOUND, a rapid and continuous series of "ticks", it means that the line is vacant. Replace your receiver for a moment to release the connection and then call "Information". When the operator answers give her the number you were trying to call. She will then instruct you regarding completion of your call.

HOOK LATCHES

Some telephones are equipped with hook latches, which limit the initial movement of the receiver hook. When the receiver is removed, the partial movement of the receiver hook permits you to listen and determine if the line is busy. The release of the hook latch permits the receiver hook to move to its full operating position, connecting the telephone for dialing as soon as the dial tone is heard.

When answering your telephone be sure to release the hook latch.

Your Key to Faster Long Distance Service

CALL BY NUMBER

Your door to the world is the telephone. You can unlock it more quickly, if you always use this simple key —call by number when placing long distance calls. Keep a list handy of the numbers you call—you'll be amazed at the time saved.

WORKSHOP ON WHEELS

A telephone truck carries just about every tool and piece of equipment needed by skilled specialists to keep telephone lines always on duty.

The expense of maintaining and manning this workshop on wheels is enormous. It is typical of the high cost of furnishing the low cost service — you can and should take for granted.

HOW TO DIAL ANOTHER TELEPHONE ON YOUR LINE

(1) If the second and third figures in the number you wish to call are the same as the second and third figures in your own number, the party is on your line. For example, 2454 and 3452 are on the same line.

(2) To call another party on your line, dial the number desired; a busy signal (a buzz-buzz-buzz) will then be heard. Replace your receiver, then the called party's telephone will be rung. Allow sufficient time for the called party to answer, remove your receiver and talk. Should the other party fail to answer, replace the receiver. On a rural line your telephone will ring also. The answer of the called party will stop the ring; you may then remove your receiver, trip the hook latch and talk. If the called telephones do not answer, you may stop the ringing of your bells by removing the receiver, trip the hook latch and replace the receiver.

TO PLACE AN EMERGENCY LINE RING ON RURAL LINES

To place an emergency line ring to all subscribers on your line, dial 3, then the second and third figures of your number, followed by 3. For example, if your number is 2361, you would dial 3-36-3.

Replace your receiver after dialing and all telephones on the line will ring. When ringing stops, remove the receiver, trip the hook latch and talk.

The emergency ring is 5 short rings.

You may also place an emergency line ring by dialing "0" and request the operator to make your announcement.

HOW TO DIAL ANOTHER TELEPHONE ON YOUR LINE

(1) If the second and third figures in the number you wish to call are the same as the second and third figures in your own number, the party is on your line. For example: 4221 and 5224 are on the same party line.

(2) To call another party on your line, dial the number desired; a busy signal (a rapid buzz-buzz-buzz) will then be heard. Replace your receiver, then the called party's telephone will be rung. The bells on your telephone will ring also. The answer of the called party will stop the ring; you may then remove your receiver and talk.

HOW TO DIAL AN EMERGENCY LINE RING ON RURAL LINES

To place an emergency line ring, dial 4, then the second and third figures of your number if you are placing a call on your line; or the second and third figures of the other number if you are placing a call on another line, followed by 3. For example, if you were calling 3220, you would dial 4-22-3.

When placing an emergency line ring on your line, it is necessary that you replace your receiver on the hook immediately after dialing to permit the bells of telephones on your line to ring. When ringing stops, remove the receiver and talk.

When placing a call on other lines, do not hang up after dialing. To do so will break the connection.

The emergency ring is 5 short rings.

You may also place an emergency line ring by dialing "0" and request the operator to make your announcement.

Mrs. Smith in this chair

Any modern homemaker will tell you that her telephone is her "right hand" . . . at her service 24 hours a day.
And it's a servant that gives value far beyond its low cost.

TRAVELING OR TALKING YOU'LL GET THERE EVEN QUICKER IF YOU CALL LONG DISTANCE BY NUMBER

Although rockets are very much in fashion nowadays, we can assure you service fast enough to please if you call long distance by number. That way, your call will go straight through.

TALMAGE EXCHANGE

HOW TO DIAL ANOTHER TELEPHONE ON YOUR LINE

(1) If the second and third figures in the number you wish to call are the same as the second and third figures in your own number, the party is on your line. For example: 4221 and 5224 are on the same party line.

(2) To call another party on your line, dial the number desired; a busy signal (a rapid buzz-buzz-buzz) will then be heard. Replace your receiver, then the called party's telephone will be rung. The bells on your telephone will ring also. The answer of the called party will stop the ring; you may then remove your receiver and talk.

HOW TO DIAL AN EMERGENCY LINE RING ON RURAL LINES

To place an emergency line ring, dial 3, then the second and third figures of your number if you are placing a call on your line; or the second and third figures of the other number if you are placing a call on another line, followed by 3. For example, if you were calling 3220, you would dial 3-22-3.

When placing an emergency line ring on your line, it is necessary that you replace your receiver on the hook immediately after dialing to permit the bells of telephones on your line to ring. When ringing stops, remove the receiver and talk.

When placing a call on other lines, do not hang up after dialing. To do so will break the connection.

The emergency ring is 5 short rings.

You may also place an emergency line ring by dialing "0" and request the operator to make your announcement.

The Lincoln Telephone & Telegraph Company

Facts About Nebraska City

POPULATION: The 1950 census showed the population to be 6,872. The 1956 estimate is 8,000.

HISTORY: Nebraska City's history goes back to 1846, when the original Fort Kearney, a blockhouse, was built to serve as a fort. The first post office was known as Table Creek but was soon changed by the merchants of the town. Nebraska City, incorporated in 1854, was the gateway for westbound settlers and is famed for its replica of a blockhouse on its main street, its courthouse, the oldest public building in Nebraska, and its "Corsos" and "Rues." Corso, Italian name for street, is used instead of street for parallel streets to the south. Rues, French name for street, is used in the southeast section of the city.

ALTITUDE: 1,029 feet above sea level.

GOVERNMENT: Nebraska City has a mayor-council form of government and is the county seat of Otoe County.

EDUCATION: The schools of Nebraska City are ranked at the top in their staff and course of studies, offered in 6 grade schools, 1 high school and 2 parochial schools.

CHURCHES: 14 churches representing all the major denominations.

HOSPITALS: Saint Mary's, Brown and various clinics serve the medical needs of the community.

AGRICULTURE: Farmers in the Nebraska City area produce cattle, hogs, poultry, small grains, corn and forage. Also, some of the finest apple orchards in Nebraska are located in this area, producing for local and national markets.

INDUSTRY AND TRADE: 14 major industrial firms produce a wide variety of items. Over 250 retail and service establishments assure those who come to Nebraska City quality goods and services in every line of business.

UTILITIES: Nebraska City Public Utilities is municipally owned. Water, gas and electricity are furnished at rates comparable to or lower than other towns of similar size in Nebraska.

ARBOR LODGE: A state park, located northwest of the city on U. S. highways 73 and 75, that is the outstanding beauty spot of the Midwest, in the park stands the 52 room mansion of J. Sterling Morton, farmer statesman, Secretary of Agriculture and the founder of Arbor Day.

JOHN BROWN'S CAVE: Located southwest of the city on state highway 2. Important hideout of the South's fugitive slaves on the early "Underground Railway." Visitors can follow the tunnel from the cabin to the creek bed, the route used by fleeing slaves.

CIVIC ORGANIZATIONS: Through the Chamber of Commerce, business, professional and civic organizations, many constructive programs and projects are provided for the advancement of Nebraska City.

Don't Run—REACH for the Nearest Telephone

There is no better way to do away with wasted steps and lost effort than by installing a low-cost extension telephone. This gives you service at your fingertips, thus eliminating a frantic run through the house and perhaps even missing your call.

Extension telephones cost very little extra—so little in fact it becomes almost nothing when compared with the greatly increased convenience you enjoy. Our business office will gladly tell you more about wonderfully convenient, low-cost extension service. Call today!

The Lincoln Telephone & Telegraph Co.

for
easy
shopping

Look in the Yellow Pages

You can sit in your easy chair and do your shopping —just by opening your classified directory and picking up your telephone.

You'll find dealers of your favorite products, brands and services listed conveniently for you. It's easy to find who offers the best price—the fastest service—who delivers—other valuable information.

So forget about parking and walking worries. Do your shopping the easy, thrifty way—the classified directory way.

The LINCOLN TELEPHONE AND TELEGRAPH Company

Where To Buy It? THE YELLOW PAGES Will Tell You.
